

Policy for Testimony:

1. Public Comment is welcome under the topics outlined for the time frames noted. The public is asked to present principal concerns related to the May Revision reduction proposals in the budget areas outlined.
2. The Conference Committee requests that stakeholders collaborate with others who share a similar perspective or voice, in an effort to make the optimal use of public testimony and avoid repetition of points.
3. If representatives of groups choose to speak, they are welcome to acknowledge others in the hearing room or in attendance in an overflow room as part of their testimony.
4. Written testimony is welcome and encouraged. To facilitate this in the hearing for those not able to testify due to the number of issues and expected attendance, comment cards will be available for submission to the Conference Committee.
5. All comment cards, as with any written testimony submitted, will be received, read, and taken into consideration by the Conference Committee.
